\n\n\\n0222 Build a system that evaluates potential candidates automatically during onboarding. Use \n\n\\ncriteria like:
\\n\\n\\nLow financial capacity combined with several case stakes (e.g., loss of custody, \n\n\\n\\n\\njust outcomes).
\\n\\n\\nDetailed client-submitted stories that highlight extreme needs. \n\n\\n\\n\\n0222 Include a "human override"
for flagged cases where the system defers the final decision \n\n\\n\\nto you. \n\n\\n\\n\\nEmployee/Partner Nomination (if applicable)
\\n\\n\\n0222 Allow trusted team members to flag cases they believe deserve your attention. \n\n\\n\\n\\n0222 Train them to recognize
and document signs of genuine need and integrity. \n\n\\n\\n\\n\\n\\n3. Process for Granting Free Services \n\n\\n\\n\\n\\n1. Automatic
Notification: \n\n\\n\\n\\n0222 You receive an alert or summary of flagged cases, ensuring you have the final \n\n\\n\\nsays. \n\n\\n\\n2.
Personal Review: \n\n\\n\\n\\n0222 Read the client's \n\n\\n\\n0219s story, review their case details, and decide whether to offer the
\\n\\n\\nfree service. \n\n\\n\\n\\n3. Discrete Delivery: \n\n\\n\\n\\n0222 Present the offer to the recipient in a way that maintains their
