

went through an old phone of mine on 09/13/2023 and found nudes that I had sent to another guy before we had met. He said he took screenshots of them and has mentioned having these screenshots on multiple occasions since this occurrence. After he told me this, I went through the drawer that had my old phone in it and found that it had been shattered and destroyed by him. (On 09/13 Andrew text me saying that he got message on Facebook from a fake profile with screenshots of nudes that I sent to him. After I got home on 09/13/23, I asked if I could see the messages from the fake profile, so I could verify who I thought was sending them and press charges and he told me no and asked me not to reach out to the person. After this incident on 11/15/2023, I realized that no one had ever reached out to him and he got the images by going through my old phone). I went on my Facebook account and verified that someone had logged in to my Facebook account on that phone on 09/13/2023.

11/17/2023 – I had suspected that Andrew could have been poisoning me over the past few months because of random rashes/pain that I would get but I was never able to confirm or deny this. Andrew has made several comments about poisoning me and comments about arsenic over the past couple of months. Andrew prepared and packed my lunch this morning and I ate it at 11:30AM. Around 12:00PM, I got extremely lightheaded and felt as if I was going to pass out. I also started getting welts on my hands and feet. A co-worker of mine called for an ambulance. When I went to Butterworth in Grand Rapids, they couldn't test for any type of poisoning outside of narcotics, which came back negative, so I wasn't able to get a definitive answer there. They released me later on that night after my symptoms started to decrease.

11/30/2023 – My dad had given me lawn supplies (weed whacker, backpack leaf blower, and a dethatcher) over the last couple of months. On this day Andrew made comments about how these are his because he's the one that uses them. I explained that they were gifted to me by my dad. My dad came over and grabbed the weed whacker and leaf blower as he was able to fit those in his vehicle at the time. He said he would be back another day to grab the dethatcher when he could borrow a truck from someone.

12/1/2023 – I explained the situation to one of my friends and she found the dethatcher listed on Facebook marketplace for \$500 by Andrew. After I got home from work that day, my dad came and got the dethatcher in his friend's truck and brought it back to his house with the other equipment. Later that evening, I was looking through the garage and found a hidden camera that was placed there by Andrew without my knowledge. After finding that I went in the home and started doing dishes and noticed a mason jar mixed in with the dirty dishes that reeked of chemicals and had a pesticide scent to it. Andrew was at a friend's house that evening into the morning of 12/2/2023.

12/2/2023 – Andrew came home around 1:00AM. I heard the door to the garage open and continued to pretend to be sleeping when he walked in. When he opened the house door, he slammed the door open and started yelling that he caught me going through his stuff and that it's on camera and he started throwing little things at me. I continued to pretend like I was sleeping as I didn't want to agitate him more. He continued to go in and out of the bedroom over the next two hours. He began standing over me while he was eating out of a bowl and watching me as I pretended to sleep. He started stabbing the bowl really hard while he was standing over me. He went back into the bedroom after doing this for about 10 minutes. When he went into the bedroom, I texted my mom asking if she could contact the police because I thought he was going to do something to me. The police arrived, but said there was nothing that they could actually do because he hadn't put his hands on me. They recommended that I file for a PPO. I took the kids and went to my parents for the night and then went out of town for the rest of the weekend, so I wouldn't have to be in contact with him.
