1143 E Norton AV

I was dispatched to the listed location on report of a custody interference. The caller, Andrew Pigor advised that he dropped off his son, Lincoln Watson, off at Emma Watson's mother, Lori Watson's home. Andrew advised he was later told that he could no longer see his son. Andrew was requesting a TX.

Upon calling Andrew, he stated that he is unable to directly contact the mother of his son, Emma Watson, as she has a PPO against him. Because of this, Andrew uses Emma's mother Lori as a go-between for custody arrangements. Andrew stated that earlier in the day on 3/26, he dropped their son Lincoln off at Lori's home on E Norton, as he usually does. A short time after dropping Lincoln off, Andrew stated he received a text from Lori stating that he could no longer see Lincoln and would be trespassed if he returned to the E Norton address. Andrew stated that he has started the process to create a formal custody agreement through Friend of the Court, but it has not yet been approved. I advised Andrew that this incident would be documented, but no actions could be taken to force Lori to allow Andrew to see his son.

Andrew then requested that I perform a check well-being on Lincoln at Emma's address at 2160 Garland, as he was worried Emma is not taking adequate care of him.

Upon arrival, I made contact with Emma, who willingly allowed me to enter the residence. Upon entering the residence, I found the home to be tidy and a safe environment for children. Emma then showed me that Lincoln was sleeping in a crib in a rear bedroom of the home. Emma picked up Lincoln, he appeared to be healthy. Emma advised that she is declining to let Lincoln see Andrew as she received word that his home is not safe for children.
