

NUCLEUS APEX SUPERGRAPH — Poster Blueprint (V2)

Upgraded: corrected GraphML key mapping + appended Harvest + appended MEEK234 rebuild baseline

Build: 20260208_2011 • Nodes: 23,956 • Edges: 214,090 • Source: NUCLEUS_APEX_SUPERGRAPH_20250908_030140.graphml.xml

Operating Governance + Runtime Gates

How the nucleus is meant to be used (graph-native litigation OS)

- TRUTHLOCK: no invented facts; everything pinned to evidence atoms or clearly marked as a plan/task.
- AUTHLOCK: Michigan-first authority snapshot; vehicles must map to correct court/jurisdiction; forms only when mandated.
- QUOTELOCK: verbatim quotations require independent verification before FILE_READY(PCG; DRAFT may stage candidates with acquisition plans.
- FORMS-FIRST (conditional): relief → vehicleform → rule/standard → elements → proof obligations → deadlines/service → exhibits.
- OperatingOrderPin gate: every candidate vehicle must identify/pin the operative controlling order (entry date, ROA, service, supersession/stay).
- Fail-soft runtime: uploads auto-pass; system artifacts (edgers/inartifacts/graphs) are not exhibits by themselves.

Node Kinds (d2)

Top 22 kinds by count (correct GraphML mapping)

kind	count	share_pct
AUTHORITY	15,695	39.1%

Text Corpus Signal (tail_preview.txt)

short excerpt (as provided)

- 4. One of the individuals identified himself or was referred to as "Henry", and he was acting under the direction or approval of the property manager and/or representatives of Shady Oaks Park.
- 5. At no point was Plaintiff Andrew Pigors present during this incident; I knew he was out of town visiting family, including his son, at the time.
- 6. I was specifically asked to keep an eye on Plaintiff's home while he was away and thus had firsthand visual knowledge of the unauthorized entry.
- 7. I did not observe any uniformed law enforcement officers or properly served writs of eviction at the scene during the lock drilling or removal of property.
- 8. I believe this entry was done without lawful court authorization, and it was highly disturbing to observe.
- 9. I am willing to appear in court or provide testimony, if needed.
- FURTHER AFFIANT SAYETH NOT.
-

Appended Outputs (this cycle)

What was generated + what was packed for append-only reuse

- Poster V2 PDF: NUCLEUS_APEX_POSTER_BLUEPRINT_V2_20260208_2011.pdf
- Poster pack ZIP: contains V1+V2 posters, metrics CSVs, harvested texts, rebuild spec+script, and run_summary.json.
- If any earlier attachments referenced in prior cycles are missing/expired, re-upload them to re-integrate into the next V3 poster.
