5. At the civil disposition hearing in District Court on **April 16, 2025**, the judge confirmed my account was **paid through December 2024**. Yet the Defendant failed to provide a complete ledger until weeks later—and even then, the ledger **began in January 2025**, falsely alleging immediate arrears exceeding **\$2,500**.
6. When I accessed the Shady Oaks tenant portal, my **entire payment history from October 2023 to January 2025 had been erased**, blocking my ability to verify or dispute the balance or assert my legal rights.
7. I have made **over \$3,300 in verified payments** in 2025 alone, which include:
 - a. A check from **Karen Rettig**, deposited by **Partridge Securities** on behalf of Defendant.
 - b. A **\$2,056 payment** from **True North**, issued directly for my housing support.
8. None of these payments appear on the current ledger. Instead, the ledger contains improper utility charges (water/sewer) while the park is under a **confirmed EGLE sewage violation** since **February 2025**.
9. On **May 20, 2025**, Defendant **unlawfully shut off my water without notice** while my minor child was present during parenting time. This action constitutes a violation of **MCL 750.552a** and general housing code standards.
10. I have endured **targeted harassment**, denial of documents, retaliation for requesting repairs, and eviction threats, all escalating after I reported the sewage leak to regulators.
11. Defendant is part of a larger corporate enterprise—**Homes of America and Alden Global Capital**—with a documented pattern of displacing tenants. Flyers from **MHAction** were distributed in our community and warn of similar misconduct. I intend to present these at hearing.
12. I respectfully submit that **irreparable harm** will occur without this Court's intervention. This includes:
 - The unlawful seizure of my home, which I own;
 - Disruption of my parenting time with my minor child;
 - Violation of my due process rights and property interests;
